ADRENALINE SL

ES

La nueva evolución de la **Adrenaline SL** va un paso más allá en la búsqueda del máximo rendimiento.

Su remozado cuadro de carbono monocasco combina fibras de ultra alto módulo y módulo intermedio para lograr un equilibrio perfecto entre ligereza extrema, rigidez y absorción. Además la nueva potencia integrada y el cableado interno le aporta al conjunto un plus de aerodinámica y estética.

Concebida bajo los parámetros de la filosofía de diseño **G2** se ha logrado una bicicleta cómoda pero no exenta de carácter deportivo.

Unos componentes *premium* (donde destacan los grupos *wireless* o el potenciómetro integrado *4iiii*) acaban de conformar una bicicleta concebida para el ciclista más exigente. Más rápida y aerodinámica que nunca.

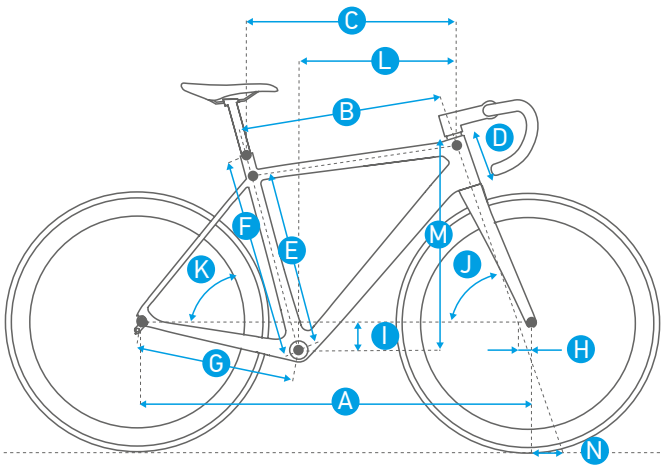

EN

The new evolution of the **Adrenaline SL** is an step forward in the search of the maximun performance.

Its new carbon frame combines high and intermediate modulus fibres to reach the perfect balance between the extreme lightness, stiffness and absorption. The new integrated stem mixed with the internal cable routing offers an improvement in terms of aerodynamics and aesthetic.

Designed under the **G2** design ohilosophy, we have created an incredible comfy bike but with racing in its DNA.

A *premium* selection of components (*wireless* groups and *4iiii* powermeter) make this bike the perfect tool for the most demanding cyclist. Faster and more aerodynamic than never before.

ADRENALINE

ES

Con todo el ADN competitivo de su hermana mayor y compartiendo con ella evolución aerodinámica y funcional; la **Adrenaline** representa una de las opciones más interesantes y equilibradas que ofrece actualmente el mercado.

Gracias al empleo de fibras de carbono de modulo intermedio, una cuidada selección de componentes (en la que destacan los grupos *wireless* electrónicos) y un diseño versátil (basado en la filosofía **G2**), se consigue una bicicleta tremendamente eficiente tanto en la competición como en el cicloturismo más exigente.

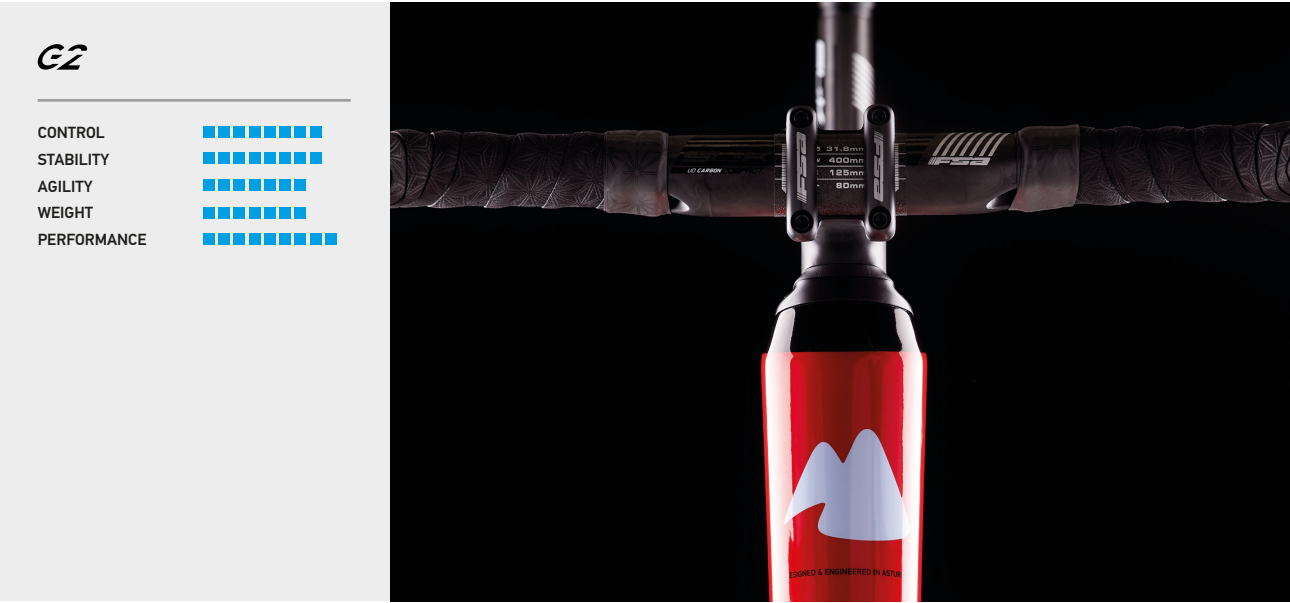

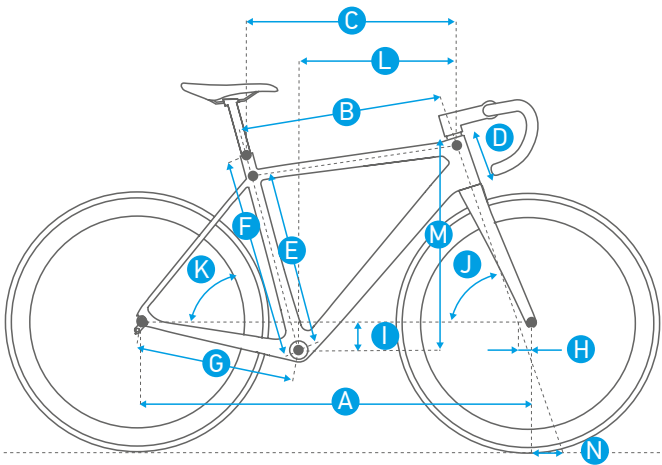

El cableado interno con potencia integrada, el anclaje de frenos *Flat Mount*, los ejes pasantes en ambos trenes y un comportamiento impecable, convierten a la **Adrenaline** en una bicicleta top en su segmento.

EN

Sharing the competitive DNA and the aerodynamic evolution with its big sister, the **Adrenaline** represents one of the most interesting and balanced option of the market.

Thanks to the intermediate modulus carbon fibres, and a excellent componentes selection ((Wireless groups and *4iiii powermeter*) and a versatile design (**G2** Philosophy based) we have created an incredible efficient bike for racing at the highest level or demanding cycling.

The internal cable routing with the new integrated stem, the *Flat Mount* disc brakes, the thru axle and an incredible performance make the **Adrenaline** one of the best bikes in its segment.
